

Pediatric medical examination couch h666_03

Pediatric couch with metal frame, 6 cm padded top, mechanical adjustable backrest and fold-down footrest. Height 80 cm, capacity 130 kg.

Couch specifically designed for pediatric clinics, hospital departments, and specialized children's medical centers. The structure combines **robust metal and a foam-padded top** to ensure comfort and stability during medical examinations. Equipped with a **manually adjustable backrest** and a **fold-down footrest**, it allows for various examination positions, adapting to clinical needs. The presence of an **integrated roll holder** makes it self-sufficient for managing medical paper or consumables.
