

Perforated bin for hotel room furnishings h957_17

14-liter perforated bin with black decorative base. Dimensions: Ø 25 x h 32 cm. Available in different colors.

The **hotel room furnishing bin h957_17** is an elegant and functional furnishing accessory, ideal for hotel rooms, B&Bs, offices, and professional spaces. Its **perforated design** combines aesthetics and practicality, while the **black decorative base** protects surfaces and adds a refined touch.

Made of **DC01 quality cold-rolled white sheet metal** (EN10130 standard), it guarantees robustness and lightness, with a net weight of only 1.6 kg. The **fire-retardant electrostatic polyester resin coating**, with a uniform thickness of 60 microns, offers excellent resistance against scratches, bumps, and abrasions, making it ideal for intensive daily use. Polymerization at 200°C ensures a durable and long-lasting finish.

This bin complies with major European safety regulations, with **A2-s1, d0 (UNE EN 13501)** and **M1 (UNE 23727)** classifications, ensuring safe use in professional environments. It is also available in **different colors**, offering the possibility to choose the model best suited to the room's design.

Thanks to its **14-liter capacity** and compact design (Ø 25 x h 32 cm), it is perfect for medium-sized environments that require a practical, resistant, and at the same time elegant element. The product is packed with **FSC-certified** materials, guaranteeing environmental sustainability.

Add elegance and functionality to your spaces with the **hotel room furnishing bin h957_17**. With its perforated design, black decorative base, and available color options, it is perfect for professional environments requiring a unique style.
