

Perforated lacquered metal umbrella stand h413_87

Cylindrical lacquered metal umbrella stand with square perforation, Ø 25 x h. 50 cm. Versatile and durable design for professional environments.

The **cylindrical umbrella stand** in lacquered metal is a functional solution designed for the organization of entrance spaces in professional and commercial contexts. The structure is characterized by a specific **square patterned perforation** which, in addition to defining the product's aesthetics, ensures proper internal ventilation, facilitating the evaporation of residual moisture from the umbrellas.

Technical features

- **Material:** metal with lacquered finish
- **Processing:** square holes for ventilation
- **Shape:** cylindrical
- **Dimensions:** Ø 25 cm x height 50 cm
- **Customization:** available in different color finishes
