

Perforated metal umbrella stand H957_31

Perforated metal umbrella stand H957_31 in DC01 sheet metal, Ø 21.5x50 cm. Includes two handles and internal drip tray for professional use.

The **H957_31 perforated metal umbrella stand** represents a technical and furnishing solution designed for the optimal management of wet umbrellas in high-traffic contexts. Made of **DC01 cold-rolled sheet metal** according to the EN10130 standard, this accessory combines structural lightness and mechanical resistance, meeting the needs of modern offices, hospitality facilities, and public spaces.

The surface finish is achieved through **fire-retardant polyester resin electrostatic painting**, polymerized at 200° to guarantee a 60-micron thickness highly resistant to scratches and corrosion. The integration of an internal tray and ergonomic handles transforms a functional object into an indispensable tool for maintaining the decor and safety of reception environments.

Technical specifications

- **Material:** White cold-rolled sheet metal, DC01 quality (EN10130 standard)
- **Base:** Black polyethylene coating for the protection of support surfaces
- **Collection system:** Internal tray in impact-resistant polystyrene, removable for emptying
- **Handling:** Two handles integrated into the metal structure
- **Ventilation:** Perforated design to promote air circulation and rapid drying
- **Painting:** Fire-retardant polyester resin (Classification A2-s1, d0 according to UNE EN 13501 and M1 according to UNE 23727)
- **Heat treatment:** Polymerization at 200°C for 20 minutes (60 micron thickness)
- **Dimensions:** Ø 21.5 x H 50 cm
- **Weight:** 1.2 kg
- **Variants:** Available in multiple colors for architectural integration
- **Compliance:** Tested for fire stability, impact resistance, and abrasion resistance
