

Perforated painted metal umbrella stand h86_141

Perforated painted metal umbrella stand with scratch-resistant base, 280x280x610 mm. 28-liter capacity, ventilated design for professional environments.

The **professional umbrella stand** is a technical furnishing accessory designed for organizing entrances in workplace and commercial contexts. The structure is made of high-quality **painted metal**, characterized by **perimeter perforation** that promotes air circulation, accelerating the evaporation of moisture from stored umbrellas. The base is integrated with a **high-density black plastic** element, specifically designed to prevent direct contact between metal and floor, avoiding scratches and signs of wear on surfaces.
