

Perforated stainless steel umbrella stand h413_88

Cylindrical stainless steel umbrella stand, Ø 25x50 cm, with 5 mm geometric perforation for ventilation and durable technical design.

The **cylindrical stainless steel umbrella stand** is a professional furnishing solution designed to combine structural strength with minimal aesthetics. Designed to manage order at the entrances of offices and commercial premises, this accessory solves the need for a durable container that does not suffer from the corrosive action of humidity. The particular processing with **5 mm round holes** not only gives it a modern geometric appearance, but also ensures constant ventilation, accelerating the evaporation of residual water on the umbrellas.
