Perspex support for defibrillator h667_05

Wall-mounted perspex cabinet for AED defibrillators, 24x15x46 cm, complete with mounting kit and stickers.

Wall-mounted cabinet designed to house small Automated External Defibrillators (AED) in public and private settings. It allows the device to be kept always visible, protected, and immediately accessible in case of cardiac emergency, ensuring compliance with the signaling and positioning requirements provided by regulations.

Made of **transparent perspex**, it offers complete visibility of the internal content while maintaining a discreet aesthetic. The compact dimensions (24 cm wide, 15 cm deep, 46 cm high) make it suitable for environments with limited space, without compromising on functionality. **Elegant and compact design** that integrates into the furnishings of offices, gyms, shops, hospitality, and healthcare facilities.

The supply includes the **complete wall mounting kit** and **AED stickers** for external signaling, simplifying installation and visual compliance with regulations on the location of defibrillators.

Technical characteristics

- Dimensions: W 24 cm × D 15 cm × H 46 cm
- Material: transparent perspex
- Wall mounting kit: included
- AED signage stickers: included
