

Pesticide storage cabinet h976_06

Monobloc cabinet for pesticides in 8/10 steel, 100x45x200 cm, with 28L collection tray and ventilation holes. Compliant with Legislative Decree 81/2008.

The **H976_06 pesticide storage cabinet** is a monobloc unit designed to solve critical issues related to the storage of **pesticides, chemicals, and hazardous substances** in agricultural and industrial contexts. The product meets the need to isolate potentially polluting or toxic agents, ensuring full **compliance with Legislative Decree 81/2008** and workplace safety regulations. The structure is made of **first-grade DC01/FeP01 steel** with a thickness of 8/10 mm, electro-welded to ensure superior structural stability compared to models that require assembly.

Technical features

- **Type:** Monobloc cabinet specifically for pesticides
- **Material:** DC01/FeP01 UNI EN 10130 steel, thickness 8/10 mm
- **External dimensions:** W 100 × D 45 × H 200 cm
- **Internal compartment dimensions:** W 99.8 × D 43 × H 190 cm
- **Base:** Steel plinth height 100 mm
- **Lock:** Cylinder lock with double key and two-way lever closure
- **Door security:** Internal anti-tamper hinges, 180° rotation pin, and reinforcement ribbing
- **Ventilation:** Integrated ventilation holes for natural air exchange
- **Internal equipment:** 1 containment tray (H 70 mm, capacity 28 L) and 3 adjustable shelves on rack (11 L capacity per shelf)
- **Finish:** Anti-corrosion safety green RAL 6011 epoxy-polyester powder coating
- **Physical data:** Weight 63.4 kg, volume 0.9 m³
- **Certifications:** Legislative Decree 81/2008, EN UNI ISO 9001, EN UNI ISO 14001, UNI tests on product and finishes

The cabinet is equipped with safety signage applied to the door via an adhesive compliant with current regulations.
