

Pesticide storage cabinet h976_08

Monobloc steel pesticide cabinet 8/10 mm, 100x45x100 cm. Includes 28-liter collection sump and compliant ventilation holes. The **H976_08 pesticide storage cabinet** is a technical solution designed for the safe and regulated storage of pesticides, herbicides, and chemicals. Ideal for the agricultural and industrial sectors, the device meets the need to segregate potentially hazardous products, preventing accidental spills into the environment thanks to integrated containment systems.

The structure is made of **DC01/FeP01 UNI EN 10130 steel** with 8/10 mm electro-welded panels, providing stability and mechanical resistance. The base rests on a 100 mm steel plinth, while safety is guaranteed by a swing door equipped with **internal anti-tamper hinges**, anti-cut folds, and a cylinder lock with a two-way lever closure.

Technical characteristics

- **Type:** Monobloc pesticide cabinet
- **Material:** DC01/FeP01 UNI EN 10130 steel, 8/10 mm thickness
- **Base:** 100 mm H steel plinth
- **Lock:** Cylinder lock with double key and two-way lever closure
- **Ventilation:** Ventilation holes for air exchange and regulatory compliance
- **Internal equipment:** 1 containment sump (28 L capacity, 70 mm H) and 1 adjustable shelf on a rack (11 L capacity)
- **Finish:** RAL 6011 anti-corrosion epoxy-polyester powder coating (safety green)
- **External dimensions:** W 100 × D 45 × H 100 cm
- **Internal dimensions:** W 99.8 × D 43 × H 90 cm
- **Weight:** 12 kg
- **Storage volume:** 0.45 m³
- **Certifications and Standards:** Legislative Decree 81/2008, EN UNI ISO 9001, EN UNI ISO 14001, UNI tests on product and finishes
