

Pet grooming table h938_09

Stainless steel pet grooming table with waterproof phenolic top. Dimensions: W 160 x D 70 x h 85 cm.

The **pet grooming table h938_09** is designed to offer a stable and resistant surface during animal care and hygiene operations. Its **stainless steel structure** makes it extremely robust and durable, ideal for intensive use in professional contexts such as veterinary clinics, surgeries, and grooming salons. Stainless steel is known for its **resistance to corrosion** and ease of cleaning, ensuring a hygienic environment for every work session.

The **phenolic top** is made of a **water-resistant** material, designed to safely support grooming processes involving water and detergents. This type of surface is durable, easy to clean, and prevents liquid absorption, protecting the table from long-term damage.

The **generous dimensions** (W 160 x D 70 x h 85 cm) offer ample space to work comfortably on animals of different sizes, ensuring practicality and accessibility for the operator. The simple yet functional design ensures **optimal stability**, making it suitable for use in both clinics and professional grooming salons.

Purchase the **h938_09 stainless steel pet grooming table** and improve your work efficiency! Thanks to its robust structure and waterproof phenolic surface, it is the ideal choice to ensure a safe and hygienic environment during pet grooming.
