

Automatic soap dispenser with photocell h10744

White soap dispenser with automatic photocell operation made of thermoplastic resin. Capacity: 500 ml.

The compact dimensions and 500 ml capacity make this soap dispenser space-saving, ideal for public bathrooms in small and medium-sized premises. To ensure maximum hygiene, the dispenser is automatic and powered by 4 AA batteries; the product release occurs via photocell.

Practical and resistant, this liquid soap dispenser is made of thermoplastic resin, a material that resists impacts and stands the test of time. White in color and with a simple design, it easily adapts to any type of bathroom furniture.

Technical data sheet:
