

Physiotherapy mat in foam and imitation leather h731_70

Physiotherapy mat in graduated density foam (200x100x5 cm), fireproof and washable imitation leather covering, ideal for floor exercises.

The **physiotherapy mat** is designed to provide a stable, ergonomic, and safe support base during rehabilitation sessions, postural gymnastics, and functional training. The internal structure in **graduated density foam (21 kg/m³)** ensures optimal impact absorption and constant support, avoiding direct contact with the hardness of the ground. The **fabric-backed imitation leather** covering not only ensures high resistance to mechanical stress but also allows for deep sanitization, a fundamental requirement in clinical and professional contexts.

Technical features

- **Dimensions:** Length 200 cm, Width 100 cm, Height 5 cm
- **Internal material:** Graduated density foam 21 kg/m³
- **Covering:** Fabric-backed imitation leather, removable via zipper
- **Safety:** Certified fireproof material and anti-shock rounded edges
