

Phytopharmaceutical cabinet with hinged doors h1033_06

Low phytopharmaceutical cabinet in 8/10 steel, dim. 100x45x100 cm, with 32-liter collection trays and protected ventilation for safe storage.

The **H1033_06 phytopharmaceutical cabinet** is a professional storage unit designed for the safe management of phytosanitary products in agricultural, industrial, and logistical contexts. Thanks to its **low and compact configuration**, this cabinet allows for the optimization of space in specialized warehouses and service areas, while ensuring superior protection against accidental spills and unauthorized access.

The structure is entirely made of **8/10 DC01 steel sheet (UNI EN 10130)**, characterized by a press-bent self-supporting modular construction that provides high mechanical stability. Operational safety is supported by vertical external edges with a **2 mm radius of curvature**, eliminating sharp points in compliance with accident prevention regulations.

Technical features

- **Material:** 8/10 DC01 steel sheet – UNI EN 10130 press-bent
- **Structure:** self-supporting modular with rounded edges 2 mm radius
- **Containment system:** bottom collection tray (20 liters) and adjustable intermediate tray (12 liters)
- **Total collection capacity:** 32 liters
- **Ventilation:** natural, protected against the intrusion of external bodies
- **Volume of carico interno:** 450 liters
- **Doors:** hinged with invisible clip-on hinges and 110° opening
- **Locking:** 2-point lock (top and bottom) with double safety folding key
- **Handles:** recessed square ABS handle
- **Finish:** charcoal gray epoxy-polyester powder coating with phosphodegreasing pre-treatment
- **External dimensions:** W 100 x D 45 x H 100 cm

Optional:

- Kit 2 extra shelves for phytopharmaceuticals (dimensions W 99.5 x D 35.8 x H 3.8 cm)
