

Picnic set table and benches h109211

Pine wood picnic table with galvanized and painted steel structure. 100% Made in Italy. Fixing: to be bolted down.

Picnic set with an innovative design ideal for public parks and gardens. Supporting structure in **galvanized and painted steel** complete with stainless steel screws. The sides of the table and benches consist of two robust lateral supports in 8 mm thick steel sheet on which base plates are welded to fix the structure to the ground with expansion bolts. In the upper part of the supports, plates are welded where the wooden slats will be fixed. The seats and the table top are made of **thick Nordic pine slats** autoclave-treated in accordance with DIN68800-3 standards to preserve the wood against attack by fungi, mold, and atmospheric agents.

Technical features:

- Galvanized and painted steel structure
- Pine wood seat and top
- Length: 1800 mm
- Table dimensions: D.830 x h.800 mm
- Bench dimensions: D.470 x h.450 mm
- Italian product
