- **Total length:** 1450 mm
- **Total width:** 1560 mm
- **Tabletop width:** 790 mm
- **Seat width:** 220 mm
- **Total height:** 790 mm
- **Seat height:** 490 mm
- **Weight:** 129 kg
- **Structure:** Resistant to weathering and wear

User benefits:

- **Ecological:** Made of recycled plastic, it reduces environmental impact
- **Resistant:** Perfect for outdoor use, it resists rain, sun and climate variations
- **Low maintenance:** Easy to clean and does not require periodic treatments
- **Robust and safe:** High weight to ensure stability and prevent vandalism
- **Guaranteed comfort:** Optimal dimensions to accommodate groups of people

FAQ:

1. Is the set suitable for year-round outdoor use?

Yes, thanks to the recycled plastic material, it resists adverse weather conditions without deteriorating.

2. Is it necessary to carry out periodic maintenance treatments?

No, recycled plastic does not require specific treatments; a simple cleaning with water and without corrosive substances and soaps is enough to keep it in excellent condition.

3. Is it resistant to vandalism?

Yes, the weight of **129 kg** and the robust recycled plastic structure make the set difficult to move or damage.

Mini buying guide:

When choosing a picnic set for urban furniture, it is fundamental to consider materials, resistance and practicality. Opting for **recycled plastic** means making a sustainable and responsible choice for the environment. This material guarantees long life, resistance to weathering and requires little maintenance. In addition, a set with generous dimensions and a robust structure offers comfort and safety for users. Consider installation in public spaces such as parks, green areas and rest areas to improve the enjoyment of outdoor spaces.
