

## Planter for squares h287\_182

Rectangular planter for public spaces. Material: galvanized steel. Dimensions: L100 x D50 x H45 cm.

**Planter for urban furniture**, ideal for enriching historical centers, public gardens and city squares. Made of **galvanized steel sheet** and painted following specific treatments to make the product **durable and resistant**. Its design fits perfectly in all contexts; furthermore, it **does not require fixing** to the ground given its weight which makes it self-supporting.

### Technical features:

- Dimensions: L100 x D50 x H45 cm
- Material: galvanized steel
- Fixing: floor level
- Available in corten or anthracite grey painted finish

## INFORMATION
