

Planter for street furniture h45011

Concrete planter with elliptical longitudinal section perfect for urban furniture. Available in different finishes. Length: 1500 mm. The planter represents an ideal furnishing accessory to embellish parks and municipal villas, city streets or condominium areas, helping to make outdoor environments livable.

The product consists of **two overlapping monoblocks** of different diameters, which give the planter an elliptical longitudinal shape.

The planter is made of reinforced, vibrated and sandblasted **concrete**, treated with **anti-degradation** which makes it resistant over time.

The product is complete with **lifting brackets** and is characterized by the **copper-painted aluminum band**.

The planter is available in **different finishes** that make the product perfect for every urban context.

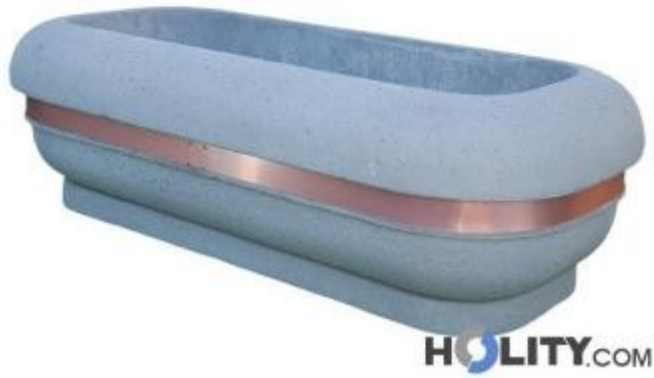

Technical features:

- Planter
- Material: concrete
- **Copper-colored painted aluminum band**
- Lifting brackets
- Available finishes: lava stone/grey concrete
- Dimensions: 1500 x700x h.460 mm
- Weight: 440 Kg

** The image is purely indicative. On request, a steel-colored band is available.*
