

Planter for urban furniture 130 Lt h1003_19

Planter for urban furniture 130 L in painted galvanized steel. Dimensions: W 48 x D 48 x H 80 cm. Provision for expansion bolts.

The **H1003_19 planter** is a solution with a **sober and elegant design**, ideal for enhancing public and private spaces through an urban furniture accessory that combines **geometric rigor and visual lightness**. Its **slender and flared shape**, enriched by well-studied proportions, makes it particularly suitable for **outdoor areas, entrances, squares, courtyards and pedestrian paths**, naturally integrating even in the most modern architectural contexts.

Entirely made of **galvanized steel and painted with thermosetting polyester powders**, it is designed to **resist over time** to atmospheric agents, UV rays and thermal shocks, guaranteeing **minimal maintenance** and maximum durability. The **internal capacity of 130 liters** is ideal for housing ornamental plants and shrubs. The interior is designed for the **inner pot** (not included), an element recommended for those who wish to use live plants and facilitate **management, irrigation and replacement of greenery**.

The planter is equipped with **provision for ground fixing with expansion bolts** (not supplied), to ensure stability and safety even in exposed or transit areas.

Choose a contemporary and functional design for your outdoor spaces. Buy the **H1003_19 planter** now or request a consultation for custom supplies.
