

## Planter for urban furniture 150 Lt h1003\_16

Planter for urban furniture, 150 L capacity in painted galvanized steel. Self-standing structure with raised base. Dimensions: Ø 61.5 x H 63 cm.

The **H1003\_16 planter** is an urban furniture accessory designed to combine **functionality, elegance, and durability**. Thanks to its **compact circular shape** and refined finish, it fits harmoniously into **public and private contexts** such as squares, porches, galleries, halls, and courtyards, contributing to the **aesthetic enhancement of spaces** and promoting a greener and more livable environment.

Made of **galvanized and thermosetting polyester powder-coated steel**, the structure guarantees **resistance to atmospheric agents** and excellent performance over time, even in unfavorable weather conditions. With a **capacity of 150 liters**, it is ideal for holding **ornamental plants, shrubs, and decorative floral compositions**. For use with living vegetation, the insertion of a **liner** is recommended to facilitate maintenance and drainage (not included).

A distinctive feature of this planter is the **plinth at the base**, which **raises it slightly off the ground**, lightening the visual impact and creating a pleasant **“suspended” effect**. The **self-standing fixing** allows for quick and easy installation, without masonry work, making it perfect also for **temporary or modular projects**.

Choose refinement and practicality for your urban project. Order the **H1003\_16 planter** now or request a personalized offer for multiple supplies.

### Technical features:

- **Material:** galvanized and thermosetting polyester powder-coated steel
- **Capacity:** 150 liters
