

Planter for urban furniture h319_139

Planter in high-resistance concrete, with internal iron reinforcement and customizable finishes. Dimensions: L 100 x W 40 x H 50 cm.

The **planter for urban furniture h319_139** is an ideal solution for enriching and organizing urban spaces with elegance and functionality. Made of **high-resistance concrete**, this planter stands out for its robustness and for its internal reinforcement in **improved adhesion iron**, which gives it stability even in contexts subject to difficult weather conditions.

This planter is the result of a careful production process, which combines **advanced techniques** and **traditional craftsmanship** to guarantee a resistant product with attention to every detail. Each stage of processing is carefully studied: from the selection of materials to obtain a durable and high-performing concrete mix, to the artisanal workmanship to finish the surface with a smooth and pleasant-to-the-touch texture.

Designed to be used in **squares, parks, pedestrian streets, and residential areas**, the h319_139 planter offers a wide range of **customization in finishes**, allowing it to be perfectly adapted to the architectural style of the surrounding environment. Its **resistance to atmospheric agents** and the ability to maintain its characteristics unchanged over time make it an excellent choice for urban furniture.

Furthermore, the **rigorous quality control** it undergoes ensures a reliable product that meets the highest expectations.

With the h319_139 planter, you do not just choose a functional element, but also a piece of urban furniture that combines aesthetics and solidity. The result is a piece of furniture that brings order, harmony, and prestige to public or private spaces.

Transform your urban spaces with the **h319_139 planter!** Solid, elegant, and customizable, it is the ideal choice for giving character to parks, squares, and residential areas. Contact us now for more information or for a personalized quote!
