

Planter for urban furniture in galvanized steel h939_68

Round planter for urban furniture h939_68 in galvanized steel with stainless steel band. Diameter 810 mm, contemporary design and resistant powder coating.

The **urban furniture planter h939_68** is a design element created to enhance public and private spaces with a sober and elegant style. Made of **2 mm thick galvanized steel**, this round planter stands out for the integration of a refined **decorative stainless steel band**, which highlights its modern and contemporary lines. The product solves the problem of setting up greenery in high-traffic urban contexts, offering a robust and durable solution over time. The structure is designed for simplified free-standing installation, ensuring stability thanks to its own weight and generous dimensions, ideal for accommodating different types of plants and shrubs.
