

## Planter for urban furniture in recycled plastic h924\_35

Planter for urban furniture in 100% recycled plastic for outdoors, solid and resistant. Dimensions: W 70 x D 55 x H 35 cm. Weight: 33 kg.

The **H924\_35 urban furniture planter** represents a smart and sustainable choice for those who wish to furnish outdoor public or private spaces with **ecological, resistant solutions with an essential design**. Made entirely of **100% recycled plastic**, it is designed to ensure **maximum durability** over time and **minimal maintenance**, perfect for parks, green areas, condominium spaces, schools, cycle paths or urban contexts.

This material is **highly resistant to atmospheric agents** (rain, frost, UV rays) and does not require additional treatments, unlike wood or metal. Its **weight of 33 kg** contributes to the **stability** of the structure even in the presence of wind or in unsupervised open spaces.

From an aesthetic point of view, the planter easily integrates into any urban architectural context thanks to its **sober and functional design**, and can also be used to delimit areas or create pedestrian paths.

Choose the sustainable quality of the **H924\_35 planter** to furnish your urban spaces. Contact us now to receive a tailor-made proposal for public projects or multiple supplies.
