

Metal planter with bench h140159

Circular planter with circular bench made of metal ideal for urban furniture. Italian product.

Circular planter with bench **ideal for the decoration** of squares, cities, courtyards and outdoor spaces of shopping centers and sports facilities. The choice to use galvanized steel round tube rings for the entire structure was made to provide a **continuity of movement with the circular bench**. The eight rings of the planter, significantly thicker than those of the seat, wrap around the internal container made of fiberglass, which will hold the plant. While the galvanized steel round tube rings forming the circular seat are welded onto specific supports to ensure stability. The planter stands out as a piece of furniture capable of characterizing **contemporary outdoor environments**.

Anti-corrosion treatments and finish

- **Pre-treatment:** before being painted, the product is pre-treated by spray washing with special degreasing liquids. After washing, the product to be painted is dried for 15 minutes in a drying kiln.
- **Anti-corrosion treatment:** in order to provide suitable protection against atmospheric agents, the product is subjected to an initial painting cycle using a thermosetting powder anti-corrosion primer based on epoxy resins with special pigments.
- **First baking:** the product treated with the anti-corrosion primer is subjected to a first kiln baking for 15 minutes at a temperature of 180°. In this phase, the anti-corrosive polymerizes, forming a coating thickness of approximately 60 microns.
- **Painting:** the product is subjected to a final painting cycle with thermosetting powder based on polyester resins in **brilliant aluminum** color. The painting is performed with electrostatic spray equipment, which allows the powder to deposit uniformly on the pieces, forming a minimum thickness of 60 microns.
- **Final baking:** the painted product is subjected to a final kiln baking for 20 minutes at a temperature of 160°.
