Planter with circular seating h45012

Circular reinforced concrete planter with integrated seating, Ø 180 cm, equipped with a water reserve and sandblasted finish for durable urban furniture.

This **monoblock planter** represents a multifunctional solution for urban furniture, designed to integrate natural elements and rest areas in high-traffic public spaces. Made of **vibrated and sandblasted reinforced concrete**, the structure undergoes an anti-degradation treatment that guarantees its aesthetic and structural integrity against atmospheric agents and mechanical wear.

The **double circular section** configuration not only defines the product's aesthetics, but also includes an integrated **permanent water reserve**, essential for the well-being of the trees and the reduction of maintenance interventions. The outer ring acts as a **perimeter bench**, optimizing available space and promoting the livability of squares and pedestrian areas.

Technical features

- **Material:** Vibrated and sandblasted reinforced concrete
- **Treatment:** Surface anti-degradation finish
- **Shape:** Double-section circular
- **Total dimensions:** Ø 180 cm
- **Planter compartment diameter:** 120 cm
- **Seat height:** approx. 44 cm
- **Equipment:** Permanent water reserve for irrigation
- **Weight:** 1100 kg
- **Available finishes:** Lava stone, grey concrete, white sandblasted
