

Plastic New Jersey barrier h668_05

Polyethylene New Jersey barrier. Dimensions: L100 x D40 x H60 cm. Available in white or red.

New Jersey road barrier ideal for directing traffic on motorways, in car parks and for delimiting construction sites. Characterized by extreme **resistance and lightness** thanks to its polyethylene structure. Saves space for transport and storage as it is **stackable**. Designed to be filled with water or sand to make it stable.

Technical features:

- Dimensions: L100 x D40 x H60 cm
- Material: polyethylene
- Stackable
- Can be filled with water or sand
- Available in red and white colors
- Empty weight: 6 kg
- Ballasted weight: 100 kg / LIN MT
