

Plastic workshop and construction site lamp h1019_07

Folding LED workshop lamp in impact-resistant plastic, 250 lm, USB-C charging and 360° hook. Ideal for maintenance and inspections in tight spaces.

The **H1019_07 folding LED workshop lamp** is a professional lighting tool designed to combine compactness and performance. Ideal for **mechanical maintenance, electrical work and technical inspections** in indoor environments, it solves the problem of visibility in hard-to-reach areas thanks to its articulated structure and extremely low weight of only 130 grams.

The device integrates two distinct light sources to cover different operational needs: a **250 lumen** main module for diffused lighting of the work area and a **70 lumen** top light dedicated to pinpoint inspections. Power management is handled by a lithium-ion battery rechargeable via a **USB-C** interface, ensuring fast recovery times and universal compatibility with modern charging systems.

Technical features

- **Light source:** 4 SMD LEDs (main) + 1 LED (top)
- **Luminous flux:** 250 lm (main) / 70 lm (top)
- **Color temperature:** 5700K (cool natural light)
- **Operating battery life:** up to 3 hours (max power) / 6 hours (spot light)
- **Battery:** Integrated 3.7V / 1000 mAh Lithium-ion
- **Charging time:** approx. 2 hours via USB-C
- **Protection rating:** IP20 (protection from solid bodies, indoor use)
- **Mechanical resistance:** IK07 (impact resistance up to 2 Joules)
- **Fixing systems:** Magnet at the base and 360° rotating retractable hook
- **Dimensions:** 18.6 x 4.7 x 3 cm
