

Plate trolley with upper shelf h09184

Stainless steel plate trolley for catering, 200 plates capacity, with upper shelf and swivelling wheels, dimensions 91x57x101 cm.

The plate trolley is an essential solution for the efficient management of catering, hotel, and restaurant services. Designed to hold and transport approximately **200 plates**, it allows for the optimization of collection, distribution, and gathering times of tableware during service, reducing the number of trips between the kitchen and the dining room.

The construction combines **stainless steel tube** for the framework with shelves and paneling in **steel sheet**, ensuring solidity and hygiene. The presence of a **stainless steel upper shelf** enhances the trolley's functionality, allowing for the collection and distribution of plates with greater practicality and organization. Movement is facilitated by **swivelling wheels** that ensure maneuverability in tight spaces and smooth movement in corridors and service areas.

Technical features

- Material: stainless steel
- Upper shelf: stainless steel
- Capacity: approx. 200 plates
- Wheels: swivelling
- Dimensions: W91 x D57 x H101 cm
