

Platform luggage trolley h661_06

Folding platform trolley with 725x472 mm rubberized platform. 150 kg load capacity, solid rubber wheels, ideal for logistics, offices and small transports.

The **platform luggage trolley** is a professional tool developed to optimize the manual handling of parcels and goods in logistical, commercial and administrative environments. The structure integrates a **platform with rubberized perimeter profiles**, specifically designed to cushion accidental impacts, safeguarding both the integrity of the load and the condition of surrounding surfaces such as walls and fixtures. The strength of the system is the **folding handle**, which allows for collapsing the supporting structure, reducing the overall height to only 235 mm, facilitating storage in tight spaces or transport inside company vehicles.

Technical features

- **Wheel configuration:** 4 solid rubber wheels with 100 mm diameter (2 fixed and 2 swivel for optimal maneuverability)
- **Load capacity:** Certified maximum capacity 150 kg
- **Platform dimensions:** 725 x 472 mm
- **Operating weight:** 7.50 kg, balanced to facilitate manual lifting
- **Overall dimensions (open):** L.472 x D.725 x H.820 mm
- **Overall dimensions (closed):** Total height reduced to 235 mm
- **Protections:** Soft non-marking rubber perimeter edging
