

Platform trolley folding handle h122_77

Reinforced sheet metal all-purpose trolley, 91x61x93 cm, 350 kg capacity, folding pedal handle and platform with integrated non-slip mat.

This professional **all-purpose trolley** is designed for intensive load handling in industrial, logistics, and commercial environments. Made with a **reinforced sheet metal** structure and painted with resistant epoxy powders, it offers a robust and durable solution for transporting heavy goods up to 350 kg. The constructive feature lies in the **folding tubular handle**, operated via an intuitive pedal control, which allows for optimizing storage space when the trolley is not in use.

Technical characteristics

- **Structure material:** Reinforced sheet metal with cream-colored epoxy powder finish
- **Handle:** Tubular with rubber coating for an ergonomic grip
- **Closing mechanism:** Folding with foot control and safety lock in vertical position
- **Platform:** Coated with a blue non-slip mat for load stability
- **Wheel system:** 2 fixed solid wheels and 2 high-resistance swivel solid wheels
- **Wheel fixing:** Each wheel is anchored to the platform with 4 solid bolts to ensure mechanical stability
- **Dimensions:** 91 x 61 x H93 cm
- **Maximum load capacity:** 350 Kg
- **Packaging:** Supplied in color box (wheels to be mounted)
