

Play structure with swing h575_97

Tower with slide and swing. Age of use: 3-12 years

Simple tower with slide and swing offering multiple playability, stimulating the child's motor activity. The structure is made of **90x90 mm glulam Nordic pine poles**, with rounded corners (r. 10mm). It features a perforated sheet metal roof, platforms and climb-up steps in embossed sheet metal to ensure high slip resistance, and colored HDPE balustrades. The tower is equipped with a **straight rotational polyethylene slide** h 120 cm and a **single-seater swing**.

Technical features:

- Structure material: wood
- Recommended age: 3-12 years
