

## Playground equipment for public spaces with climbing structures h109225

Multi-play composition for parks and gardens consisting of slides, climbing structures, tunnels and bridges. Age of use: 3-12 years. Dimensions: W.540xD.520xH.310 cm.

**Park composition** designed for the fun of little ones, ideal for schools, kindergartens, parks and public spaces. Structure composed of **13 octagonal aluminum supporting posts** complete with modular slides, metal wall bars and metal and HDPE tunnel.

The **multi-play composition h109225** consists of:

- 1 metal wall bar
- 1 metal and HDPE tunnel
- 1 metal arched climbing structure
- 1 metal and HDPE climbing structure
- 1 mushroom bridge
- 1 suspended climbing bridge
- 1 HDPE sheet decoration
- 1 HDPE sheet play panel
- 2 aluminum slides
- 3 metal railings
- 2 HDPE sheet and metal roofs
- 1 HDPE sheet gable roof
- 4 aluminum platforms

### **Technical features:**

- Aluminum structure
- Dimensions: W.540xD.520 cm
- Height: 310 cm
- Drop height: 150 cm
- Age of use: 3/12 years
- Impact area: 56 sqm
- Compliant with: EN 1176
