

Playground slide with wooden ladder h350_122

Outdoor slide for schools, playrooms, public gardens. With **wooden ladder**.

Playground slide, certified in compliance with European Standards EN 1176 by the German TÜV - SÜD Institute. Made of pressure-treated glulam Nordic pine with non-toxic salts. The slide for public gardens consists of:

- N°1 climbing ladder with protection panels acting as handrails made of phenolic-glued okoumé mahogany plywood, CNC-machined and edge-free. Treatment with colored stain and finish with non-toxic water-based wax paints.
- N°1 fiberglass slide h. 134 cm made with several layers of high-density resin with a track length of 300 cm.

The two elements are connected to two vertical posts of 9x9 cm section which join at the top via a shaped and CNC-machined phenolic-glued okoumé mahogany plywood panel. Treatment with colored stain and finish with non-toxic water-based wax paints. Structure complete with safety handle made of shaped steel tube, oven-painted at 180°. Assembly via 8.8 galvanized steel bolts and self-locking nuts. Standard nut covers in colored nylon. Hot-dip galvanized metal brackets for ground anchoring.

Technical features:

- Overall dimensions: 382x100x307 h cm
- Weight: 34 Kg
- Age of use: 2-12 years
- Height difference: 134 cm
- Minimum space: 775x400 cm
- Impact area: 31.00 sqm
- Available with underground or floor-level fixing

*purely indicative image, the product may undergo color changes.

*upon request for a quote, it is possible to have a tunnel or open polyethylene slide or one with a steel track and wooden sides.
