

Playground swing with double seat h350_353

Swing for playground furnishing with connected double seat. Max dimensions: L.185 x D.265 x h.235 cm. Number of users: 2.

Swing for playground equipment, gardens and children's areas for public use. Consisting of 4 aluminium posts and a top beam in round steel tube; the two side ends are embellished with 2 decorative panels in HPL layered laminate. Equipped with **double flat/cradle seat**, made of **shockproof rubber and with an aluminium core**, connected to each other by a steel structure. The oscillation system works via sturdy stainless steel joints equipped with roller bearings, from which narrow-mesh chains support the seats. Assembly is carried out using galvanized steel bolts and special self-locking nuts with coloured nylon covers. The entire structure is **oven-painted at 180° with polyester powder** guaranteeing excellent **resistance to atmospheric agents and UV radiation**. For fixing, it is possible to choose between the version with bases to be buried or bolted down.

Technical features:

- Max dimensions: L.185 x D.265 x h.235 cm
- Age of use: 3-8 years
- Number of users: 2
- Impact area: 13.75 sqm
- fall height: 130 cm
- Assembly time: 2 h
- Minimum space: 750 x 565 cm
- With connected double flat/cradle seat
- Available in burial or bolt-down version
- **EN 1176 certified product**
