

Playground walkway h350_340

Modular galvanized steel walkway with 5 PEHD platforms and welded chains, for children aged 6–12 years. EN 1176 certified, inclusive, UV resistant.

Play walkway designed for playgrounds and green spaces, intended to stimulate movement and balance in children between 6 and 12 years old. The structure combines structural strength and certified safety, meeting inclusive accessibility criteria.

The walkway is made with **galvanized and painted round steel tubing**, ensuring long-lasting durability and resistance to atmospheric agents and UV radiation. The distinctive play element consists of **5 circular PEHD polyethylene platforms** connected by **welded and hot-dip galvanized close-link chains**. The entire assembly is supported by **2 handrails in Ø 60 mm round tube** and **4 uprights** that guarantee stability. Assembly is carried out using **8.8 galvanized steel bolts and self-locking nuts**.

Technical features

- **Dimensions:** L. 265 x D. 160 x h. 197 cm
- **Age group:** 6–12 years
- **Capacity:** 5 people
- **Impact area:** 27 m²
- **Fall height:** 80 cm
- **Assembly time:** 2 hours
- **Minimum space required:** 600 x 450 cm
- **Fixing:** to be buried/inground
- **Certifications:** EN 1176, TÜV
- **Inclusive feature:** designed for multisensory accessibility
