

Plexiglass display for tobacco shops h339_78

Countertop lighter display in clear plexiglass. 3 functional shelves and 3 mm thickness for maximum visibility. Dimensions: W 90 x D 20 x H 36 cm.

The **plexiglass display for tobacco shops h339_78** is a professional large-sized display support, designed for the organization and enhancement of lighters in high-traffic retail environments such as tobacco shops and bars. Made of **clear plexiglass**, this display solves the problem of cluttered displays, offering a crystal-clear view of the products that encourages impulse buying. Thanks to its **3-shelf** configuration developed over a width of 90 cm, it allows for the rational cataloging of a wide variety of references. The design is studied to be functional and space-saving, ensuring **easy placement** directly on the sales counter for quick access for both the operator and the customer.
