## Electric blood sampling chair h634\_38

Specialist chair for minor surgery. Capacity: 200 kg. Backrest and leg rest adjustable simultaneously and independently.

**Examination and treatment chair**, specific for use in clinics, hospitals and outpatient clinics. Designed to guarantee the patient a **comfortable, ergonomic posture capable of preventing pressure sores** thanks to the presence of **2 soft foam cushions** on the backrest/seat and leg sections. Equipped with **2-motor electric operation** which allows for the **simultaneous and independent movement of the backrest and leg sections** and the achievement of the **10° trendelenburg position**. The **armrests move simultaneously with the backrest** and are also removable, rotatable, tiltable up/down and folding to 90°. The **headrest is removable and height-adjustable in 5 positions**. All movements are controlled through a **convenient 10-button handset**, which is easy and intuitive to use. The structure consists of a **painted steel frame** and **surface with fireproof and hygienic eco-leather upholstery**

### Technical features:
