

Single-seater concrete bike rack h19137

Trapezoidal single-seater bike rack in concrete conglomerate and marble grit. Dimensions 700x200x340 mm, weight 53 kg.

The **h19137 single-seater bike rack** is an urban furniture solution designed to offer maximum stability and resistance in public and private contexts. Characterized by a **trapezoidal shape**, the module is made of **high-resistance concrete conglomerate** (type R42.5) reinforced with steel armor and finished with marble grit. This structure is designed to solve the problem of instability of common light bike racks, guaranteeing secure positioning thanks to its weight of **53 kg**, which allows for removable use without the need for invasive ground fixings.

Intended for municipal administrations, condominiums, and hospitality facilities, the product integrates **specific holes for chain attachment**, responding to the need for security against theft in unsupervised areas. The surface finish, obtained through water-jet washing, enhances the aesthetics of the natural grit, allowing for harmonious integration into squares, parks, and residential courtyards.

Technical features

- **Dimensions:** 700 x 200 x 340 mm (L x D x h)
- **Material:** R42.5 high-resistance concrete conglomerate
- **Finish:** Marble grit with pressure washing
- **Reinforcement:** Internal structural steel
- **Shape:** Self-stable trapezoidal
- **Capacity:** 1 bike space
- **Security:** Prepared holes for anti-theft chain (chain not included)
- **Weight:** 53 Kg
- **Installation:** Removable / Ground support

Available color variants:

- Carrara White
- Occhialino
- Verona Red
