

Wooden waste bin for outdoor areas h8610

Floor-standing waste container with treated wooden slats ideal for outdoor use. Dimensions: cm 52.8x27.2x101.3.

The waste bin is a floor-standing container made of painted steel and "autoclave" treated wooden slats (**certified wood**).

The **autoclave treatment** allows the wood to resist deterioration, the action of insects and fungi and to benefit from a ten-year guarantee. It gives the wood a pale greenish color that fades over time and requires no maintenance.

The bin can be fixed to the floor at 4 points and features a reduced opening to prevent the insertion of dangerous and large objects.

Technical features:

- Anticorrosion treated steel
- UV-coated painted steel
- Wooden slats (certified class 4 wood)
- Discreet keyless locking system
- Drainage holes in the perforated base and floor fixing at 4 points
- Reduced opening in order to limit the introduction of bulky and dangerous objects (h 100 mm)
- Guarantee: **5 years** (does not include damage from atmospheric agents)
- Weight: **19.4 Kg**
- Capacity: **60 lt**
- Length: **528 mm**
- Depth: **272 mm**
- Height: **1013 mm**

- Optional:

Galvanized steel bucket with handles. Dimensions: mm 410x245x725. Capacity 60 lt.
