

Steel bike rack with semicircular wheel holders h19108

Bicycle rack made of galvanized steel and painted micaceous gray, available with 2, 3, 4 and 5 spaces. Floor fixing using anchors.

The **h19108 bicycle rack** represents a functional solution for organizing parking areas in urban and private contexts. Made with a robust **galvanized and powder-coated steel** frame, this support is designed to solve the problem of disorderly parking of bicycles, offering a stable and secure anchoring point. The structure, composed of square tubes and semicircular wheel support brackets, meets the needs of **public bodies, companies and accommodation facilities** that need to set up parking areas resistant to atmospheric agents in city centers, stations, schools or holiday villages.
