

Portable height-adjustable medical examination table h904_34

Professional portable table h904_34 in natural wood, 186x70 cm, with adjustable height and high-density comfort padding. The **h904_34 table** is a professional solution designed to ensure **comfort and functionality** in contexts such as medical offices, clinics, physiotherapy centers, and massage studios. The **wood structure with a natural finish** not only ensures a solid operational base but also lends a warm and elegant aesthetic to professional environments. Thanks to its **portable** nature and low weight, it is ideal for those who need a versatile and easy-to-move tool.

Ergonomics are guaranteed by the **manual height adjustment**, which ranges from 59 to 87 cm, allowing the operator to adapt the work surface to their height and the type of treatment. For the patient, comfort is ensured by **6 cm high-density foam padding** and a headrest with an integrated **breathing hole**, essential for facilitating breathing during sessions in the prone position.
