

Portable hot air generator 15 kW h958_26

Professional 15 kW three-phase electric fan heater in metal. 120 m² coverage, IPX4 protection and high air flow for industrial environments.

The **H958_26 industrial hot air generator** is a portable three-phase electric fan heater designed to provide constant and immediate heat in large volumes. Thanks to its technical configuration, the device allows for managing optimal temperatures in difficult working environments, ensuring rapid and uniform heat distribution through a high-performance fan.

Technical features

- **Maximum power:** 15 kW
- **Power supply:** Three-phase
- **Adjustable power levels:** 95 W (ventilation), 5000 W, 10000 W and 15000 W
- **Air flow rate:** 2246 m³/h
- **Recommended heated area:** Up to 120 m²
- **Integrated thermostat:** Adjustable up to 40°C
- **Operating ambient temperature:** 15-25°C
- **Fan diameter:** 300 mm
- **Protection degree:** IPX4 (resistance to water splashes)
- **Material and finish:** Robust yellow structure
- **Dimensions:** 41 x 36 x 55 cm
- **Weight:** 14.5 kg
- **Mobility:** Ergonomic top handle
