

Portable LED lamp with on-off switch h1019_06

Professional portable LED lamp, multi-brand 18V Multi Battery system, dual source 2160 lm, IP54/IK08 protection for intensive construction site use.

The **H1019_06 portable LED lamp** is a high-performance professional lighting device, designed for operation in industrial environments, workshops, and construction sites. The distinctive feature lies in the **18V Multi Battery system**, which allows integration with 44 types of 18V batteries from 10 of the world's leading manufacturers, including Bosch Professional, Makita, Dewalt, and Milwaukee. This peculiarity solves the problem of energy standard fragmentation, allowing professionals to use the battery fleet already in their possession.

The device features a **dual light source**: a 2160 lm COB module for diffused area lighting and an 1140 lm SMD LED configured as a spotlight, capable of reaching a depth of field of **200 meters**. The lamp body, certified **IK08 for impact resistance**, includes an adjustable magnetic base and an electronic protection system to prevent overheating and deep discharge of the connected batteries.

Technical features

- **Power supply system:** Multi Battery 18V (compatible with 10 leading brands)
- **Luminous flux:** COB 2160 lm / SMD 1140 lm
- **Luminous efficiency:** 108 lm/W
- **Color temperature:** 6500 K (cool light)
- **Intensity adjustment:** 5 levels (100% spot, 100% area, 75%, 50%, 25%)
- **Protection degree:** IP54 (dust and splashes)
- **Mechanical resistance:** IK08
- **Light beam range:** up to 200 m
- **Weight:** 1.43 kg
- **Dimensions:** 21.4 x 22.5 x 19.5 cm
- **Material:** High mechanical resistance polymers
