Portable Toilet with Recirculating Chemical Squat Pan h606_04

Portable toilet with chemical squat pan and rinse with recirculating water. Dimensions: W. 1100 x D. 1200 x h. 2450 mm. Door opening: 600 x 2000 mm. Waste storage volume: 170 lt.

Portable toilet with chemical squat pan and rinse with **recirculating water** through a **foot-operated diaphragm pump**. The waste water, conveyed into the **squat pan storage tank** and appropriately treated with **the disintegrating agent,** is reused for **rinsing the squat pan** thanks to the **foot-operated** diaphragm pump. Thanks to its simplicity, this version is the most economically advantageous. Waste water is used for both rinsing and waste containment. **Outer box, translucent roof, platform and toilet waste tank in LLDPE**, UV-stabilized, manufactured using rotational molding technology. **100% recyclable.** Equipped with a large **vent pipe** to avoid stagnant odors, **ventilation windows**, **latch with key** and vacant/occupied indicator, **lifting hooks** to ensure safe transport. **Side and rear handles** for easy movement and a **suitably raised base** to facilitate loading and unloading operations.

Technical Features:

- Portable toilet with Recirculating chemical squat pan
- Material of outer box, translucent roof, platform and toilet waste tank: LLDPE, UV-stabilized, manufactured using rotational molding technology. 100% recyclable
- Dimensions: W. 1100 x D. 1200 x h. 2450 mm
- Door opening: 600 x 2000 mm
- Weight: 97 Kg
- Waste storage volume: 170 Lt
- Approximately 200 uses
- Recyclable: 100%
- Available in different colors
- Reference standard: UNI EN 16194
