Portable toilet with siphoned hydraulic squat toilet h606_05

Portable toilet with **siphoned hydraulic** squat toilet. Drainage occurs directly into the **public sewer system.**

Portable toilet with siphoned hydraulic squat toilet. This portable toilet with **squat toilet** is equipped with a **flushing tank** supplied by the **water main or storage tank** and a basin sink complete with faucet. Drainage **is siphoned** and occurs directly into the **public sewer system**, the storage tank, or the Imhoff tank. Ideal for fixed installations. **Portable toilet** made of polyethylene with a self-supporting structure. Equipped with a wide vent pipe to prevent bad odor stagnation, polyethylene hinges to better withstand weather conditions, a key latch with vacant/occupied indicator, and lifting eyelets to allow maximum safety during transport. Multiple ventilation windows and a properly raised base to facilitate loading and unloading operations. **Material of the toilet with hydraulic squat toilet**: External box, translucent roof, platform, and waste tank in LLDPE, UV stabilized, produced with rotational molding technology. **100% recyclable.**

Technical Features:

- Portable toilet with siphoned hydraulic squat toilet
- Dimensions: L.1100xW.1100xh.2450 mm
- Door opening: 600x2000 mm
- Weight: 85 Kg
- Drainage pipe: Ø 110
- Recyclable: 100%
