Portable toilet with siphoned hydraulic WC h606_06

Portable toilet with ceramic WC featuring a flushing cistern fed by the water main or storage tank.

Portable toilet with WC in **ceramic** equipped with a **flushing cistern** fed by the water main or storage tank and a washbasin complete with a faucet. **The drain is siphoned** and goes directly into the public sewer system, the collection tank, or the Imhoff tank. Ideal for fixed installations. **Portable toilet** made of polyethylene with a self-supporting structure. Equipped with a wide vent pipe to prevent the buildup of **bad odors**, polyethylene hinges for better **weather resistance**, a latch with a key and vacancy/occupancy indicator, and lifting eyebolts for maximum safety during transport. Multiple ventilation windows and a properly raised base to facilitate loading and unloading operations. **Material for Toilet with hydraulic squat pan**: External box, translucent roof, platform, and waste tank in LLDPE, UV-stabilized, manufactured using rotational molding technology. **100% recyclable.**

Technical Features:

- Portable toilet with ceramic WC
- Dimensions: W.1100xD.1100xH.2450 mm
- Door clearance: 600x2000 mm
- Weight: 100 Kg
- Drain pipe: Ø 110
- Recyclable: 100%
