

Powder-coated stainless steel soap dispenser h647_27

Slim automatic stainless steel dispenser 850ml for soap and gel. Depth 100mm, ideal for narrow spaces and touch-free hygiene. The **no-touch automatic dispenser** represents a technical furnishing solution with a contemporary design, engineered to guarantee the highest hygiene standards in professional and public environments. Made with a robust **powder-coated stainless steel structure**, the device stands out for its **reduced depth of only 100 mm**, allowing for smooth integration even in restrooms with limited space. It is compatible with a wide range of products, including liquid soaps and sanitizing gels with viscosity between 1 and 3000 cP. The system is equipped with a **refillable internal container** that simplifies maintenance and allows the use of bulk refills.
