

## Pre-surgical scrub sink h601\_28

Professional pre-surgical sink for veterinary use, 110x50x85 cm. 37 cm deep structure for preoperative hygiene and contamination control.

The **pre-surgical scrub sink** is a critical element for the setup of **veterinary operating rooms** and specialized clinics. Designed to handle the preliminary stages of surgery, this sink facilitates **animal washing and sanitization** operations, ensuring the reduction of bacterial load and the removal of contaminants present on the coat before entering sterile areas.

## Technical specifications

- **Total dimensions:** L 110 x W 50 x H 85 cm
- **Internal tub dimensions:** 80 x 42 x D 37 cm
- **Operating depth:** 37 cm, optimized for splash containment
- **Configuration:** Provision for mixer connection available on the right or left side
- **Material:** Structure resistant to clinical disinfection protocols
