

Pre-surgical tub for veterinary clinics h601_30

Steel pre-operative washing tub for veterinary use, 110x50x85 cm. Depth 20 cm, ideal for the decontamination of dogs and cats. The **veterinary washing tub** is an essential component for the aseptic preparation of patients in clinics and surgical practices. Designed for the treatment of dogs and cats, this station allows for the effective removal of dirt, debris, and contaminants from the animal's fur before entering the operating room, drastically reducing the risk of surgical field infections.

Technical features

- Total overall dimensions: L 110 x 50 x H 85 cm
- Internal tub dimensions: 80 x 42 cm
- Tub depth: 20 cm for optimal liquid containment
- Plumbing setup: Mixer tap connection configurable on the right or left
- Self-supporting structure at an ergonomic height

Optional:

- Right-side mixer connection configuration
- Left-side mixer connection configuration
