

Prep sink with mixer h601_31

Professional pre-surgical sink in AISI 304 stainless steel (140x70 cm) with pressed bottom and pull-out shower for veterinary pre-operative hygiene.

The **veterinary pre-surgical sink** is a technical device designed to optimize the preparation and deep cleansing of the patient before entering the operating room. Its primary function is the systematic elimination of organic contaminants and bacterial loads, acting as a preventive barrier to protect the integrity of the surgical table and sterile surgical instrumentation.

Technical features

- **Material:** AISI 304 stainless steel with high corrosion resistance
- **Hygiene:** Pressed bottom without corner joints for total disinfection
- **Supply:** Professional mixer equipped with pull-out shower for maximum mobility
- **Internal sink dimensions:** 116 x 50 x D 37 cm
- **Total dimensions:** L 140 x D 70 x H 85 cm
- **Customization:** Configuration with mixer connection on the right or left based on the systems
