

Preparatory washing tub h601_32

Professional pre-surgical veterinary sink in AISI 304 stainless steel, 110x50x85 cm. With mixer and reversible right/left configuration.

The **pre-surgical veterinary sink** is a fundamental element for the correct management of hygiene protocols in clinical settings. Designed for the preparation and deep cleansing of the patient before surgery, it allows for the effective removal of organic debris and bacterial load, actively preventing cross-contamination of the operating table and sterile surgical instruments.

Entirely constructed in **AISI 304 stainless steel**, the structure guarantees a non-porous surface, resistant to corrosion and chemical agents typically used for hospital sanitation. The sink is supplied complete with a **mixer** and offers installation flexibility thanks to the provision for right or left attachment.

Technical features

- **Material:** High-resistance AISI 304 stainless steel
- **Components:** Single-lever mixer included
- **Internal tub dimensions:** 80 x 42 x D 37 cm
- **Total dimensions:** L 110 x D 50 x H 85 cm
- **Configuration:** Available with right or left mixer attachment
- **Finish:** Facilitated hygienic satin finish
